Assumptions Used in Arriving at Fiscal Estimate:						

Summary:

The proposal makes a number of updates and technical corrections to certain DOR administrative rules. These changes have no fiscal effect on municipalities, counties, or the DOR.

Detail of Provisions:

Section 1 of the proposal updates the address from which utilities can obtain the forms they are required to use in their annual filings with the Department of Revenue (DOR).

Section 2 of the proposal changes the name of a report form to the current name and updates the DOR address from which the required from can be obtained.

Section 3 of the proposal is not consistent with current practices under which certain utilities are valued on a unit basis. The proposal would make the rule consistent with current DOR practices.

Sections 4 and 5 of the proposal update the rules to reflect the repeal (in 1997 Wisconsin Act 27) of the Badger Fund. The Badger Fund was a segregated fund into which 40% of the collections from the mining net proceeds tax (after certain allocations) were deposited.

Sections 6 to 8 of the proposal update the real estate transfer fee rules to reflect how sheriff's sales are handled under current law. Under current law, a conveyance by or in lieu of foreclosure to a person holding a mortgage or to a seller under a land contract is specifically exempt from the transfer fee. However, a conveyance by or in lieu of foreclosure to someone with no prior interest in the mortgage or deed is not exempt.
